Letter from Petersburg. [Correspondence of the Richmond Dispatch.]

PETERSEURG, November 12, 1875. At Prince George Courthouse, yesterday William Gilliam (colored), late candidate for the House of Delegates from that county, served upon Major Mann Page his notice contest for the seat which has been swarded to the latter. John Lyon, is counsel for Gilliam. Depositions the case will be taken at the court-house Tuesday next, the 16th instant, on the part of Gilliam, when the judges of Bland isterial district (the only district to the returns of which any objection is made) will be examined. From what I can learn, it is not probable that the judges know anything about the result of that poll than they more and under eath on the night of election. The readers of the Dispatch will re member that the judges simply reported 418 memoer day without stating for whom they cast. It is stated that there are reasons for rejecting the vote Bland even bad it been counted.

A telegram from the Blue Ridge Springs day announces the dangerous illness of Mrs. M. C. Jeter, an aged lady, who has many near relatives and friends in this city. A robbery very remarkable for its boldness was committed in this city to-day. About 111 o'clock Mr. William Rahily's stable was entered and one of his horses taken, mounted, and ridden off. The party went in the direction of Richmond, and when last seen was passing the Half-way House at rapid speed. Letter from Staunton. [Correspondence of the Richmond Dispatch] FUNERAL OF MR. JAMES BALDWIN-DEATH OF JOHN BARRY FROM STABBING - INJUNCTION AGAINST THE CITY OF STAUNTON PERPETU-ATED-A FORTUNE FOR A BLINB GIRL.

STAUNTON, November 12, 1875. James Baldwin, wh was recently found drowned in the dock at Richmond, arrived here yesterday morning, and were buried from Trinity church on yesterday evening. A large number of perons attended the services to testify their kindly regard for one who was so well known and highly esteemed for his many good qualities.

The remains of John Barry arrived here from the West last night. He was a foreman on the works of Messrs, Harman & Harman, near Williamstown, Ky., and was stabbed a few days since by a negro man, from the effects of which he died on Wednesday. The negro is still at large, and I have not been able to learn his name. He is from Charlottesville.

On yesterday Judge McLaughlin rendered his decision in the case of the injunction suit of Chapman and other owners of property on Main street against the city of Staunton, perpetuating the injunction, by which the city is prevented from collecting one half the cost of the recent improvements made on that street. The decision does not affect the right of the city to lay the tax, but decides that the proceedings of the City Council, in levying the tax, were informal and not binding upon the property-holders.

The many friends of Miss Sue Ridenour, a former blind pupil of the Deaf, Dumb and Blind Institution, will be glad to learn of ber recent accession of fortune. Mr. Cyrus Holt, a former steward of the institution, recently died in Kentucky, and by his will, made in 1867, he devises his property, amounting to about six thousand dollars, to this interesting young lady. Mr. A. T. Gilkeson, of Staunton, is appointed executor in the will. Miss Ridenour is not wholly unknown to the peop'e of Richmond, where she has received high encomiums for the rare musical attainments she has displayed at several concerts in that city.

I am glad to state that Mr. Effinger, who was recently stricken with paralysis, continues to improve, and his condition this morning is very favorable to his speedy recovery.

At a meeting of the City Council last night the Finance Committee were instructed to deliver to the contractors for the Water-Works \$9,500 in the water bonds of the city for work already done by the contractors.

PEAYER AND THANKSGIVING .- To the Clergy and Laity of the Diocese of Virginia: We are again invited to unite with our brethren of the Anglican Communion in special-intercession in behalf of missions, and for this purpose it is proposed to set apart the 30th of November, St. Andrew's Day. You will, I am persuaded, deem it a privi-

lege to join in this concert of prayer; and I trust will participate plentifully in the blessing which it will bring.

Permit me to remind you that the civil

authority having recommended the 25th of November as a day of prayer and thanksgiving, it is to be observed instead of the day named in the preface to the form prescribed in the Book of Common Prayer.

GENERAL TREASURY RECEIPTS - WHISKEY TOBACCO AND CIGARS.

Washington, November 11,-The Comnissioner of Internal Revenue has comoleted his report for the fiscal year ended June 30, 1875. The document, which is very voluminous, exhibits exhaustive statistics. The Commissioner also goes into an ex-tensive history of our internal revenue system that any material reduction of the present and the British excise system, noting the identity of the subjects of taxation in Great tax on snuff from thirty to twenty-four cents Britain with those of this country before our internal revenue system had been reduced to its present limits, and exhibiting statements showing the amount of revenue collected from excise and stamps in the United Kingdom during the year ended March 31, 1875, expressed in pounds sterling and in United States money, from which the commissioner says it may be some consolation to know that grievous as are our burdens laid upon such of our population of forty-two millions or more as consume the articles taxed by our internal revenue laws, the British public, numbering less by one fourth than our people, paid under their excise law during the year ending March 31, 1875, taxes, measured gold of the United makes the following points in his States, to the amount of \$183,962,756.56, against \$110,545,154.23 paid in currency by the people of this country during the fiscal year which ended June 30, 1875. RECEIPTS FROM ALL SOURCES

> The report shows that the actual amount of receipts into the Treasury from all sources from and after June 39, 1861, to June 30. 1874, inclusive, exclusive of loans and Treasury notes, was as follows: Customs, \$1,-73.710.367.91; internal revenue, \$1,956,-823,725.30; direct tax, \$14,810,189.37; publands. \$22,151,958.02; miscellaneous, \$236,084,982.94; premium on loans and sales gold coin, \$192,557,117.46. Total, \$4,-395,638,341. Commencing with the year 1866 there has been a continuous repeal going on year by year of such internal taxes as were most oppressive, or at least as gave rise to most complaint, until at present but few subjects of taxation remain. The taxes are now levied upon distilled spirits, fermented liquors, manufactured tobacco, snuff, and cigars; upon articles embraced in schedule A; upon such occupations; upon bank-checks, deposits, circulation, and capital of banks. In a table exhibiting the sums collected during the several fiscal years ranging from 1863 to 1875, inclusive, it appears that the collections during the fiscal year ended June 30, 1874, were \$102,644,746.98, while the collections for the year ended June 30, 1875, were \$110,544,155.23. The increase during the last fiscal year is due in part to the increase of duties laid by the act of March 3, 1875, upon distilled spirits, manufactured tobacoo, cigars, and cigarettes, and in part to the taxes collected under laws re-RECEIPTS FROM THE SEVERAL STATES.

ming, \$11,942.11. THE WHISKEY FRAUDS. A lengthy review of the whiskey frauds is given in the report; how they have been committed, and preciutions taken against their recurrence; and with regard to additional legislation required to enforce the honest collection of tax on distilled spirits he says: I give it as my opinion that the only law necessary is one that shall make the requirements as stringent and the penalties for defrauding the government as severe in the case of the rectifier as they now are in the case of the distiller. The rectifier should be required to give a bond in an amount equal to the tex represented by all the spirits he can possibly rectify each month. The house and tract of land upon which the establishment is located should be forfeited to the United States in case of fraud. He should not be allowed to handle any spirits at his rectifying-house except those he purchases for rectification and sells under rectifiers'

Under the present system of detecting frauds at least thirty days must elapse before the discovery could be made and the guilt fixed, as the apparatus in a rectifying-house capable of rectifying a quantity of spirits upon which the tax would amount to \$100,000 a month may not be worth more than \$10,000, it will readily be seen that under the present law, which only forfeits the apparatus and spirits owned by him at the time of seizure, a rectifier may aid in defrauding the Government of \$100,000 and forfeit only \$10,000. By absconding to a foreign country he also

escapes the criminal punishment. I have also to suggest that the law now in force in regard to returns to be made by rectifiers is so indefinite that some legislation is needed to enforce the regulations of the commissioner. I also think it would be better if rectifiers, distillers, and wholesale liquor dealers were required to make transcripts of their books monthly, instead of this labor being performed by local officers, as it is at present. It would also relieve officials of an immense amount of labor, and would accomplish the more important result of preventing the destruction of books by parties about to be detected in fraud. There would then be a sworn copy in this office that would always be admissible evidence in

courts against the guilty parties. I am firmly of the opinion that the present large tax upon distilled spirits can be collected with but small loss. This opinion is based upon the fact that every storekeeper, gauger, and employe who is connected with the distillery where fraud is perpetrated becomes a pensioner upon the distiller. If, therefore, distillers be kept under such strict, surveillance that the amount of money gained by fraud is not sufficient to pay s large corps of officers and workmen in necessary collusion with them to consummate the fraud, they will as a matter of policy be

As an indication of the extent of the frauds described, I have the honor to report that documentary evidence is in possession of this office which has warranted the seizure of twenty-four distilleries and thirty-seven rectifying-houses, and implicated over fifty United States gaugers and storekeepers. faculties. If the local weakness of a portion | This evidence also shows the issue between July 1, 1874, and May 1, 1875, of fraudulent spirits by the duplication of 20,000 packages, containing, probably, 12,000,000 proof gallons, and by the aid of false gauging to the additional amount of 1,000,000 proof gallons. This, of course, is but a portion of the fraud actually committed, but in itself indicates the loss of tax to the Government in ten months

question, and appeals to the Legislature to create a healthful instead of a sectional feeling. Such sectional feeling will not enhance the State's reputation at home or abroad, and he says the seat of the government is not so important as the enactment of wholesome laws.

number of suits have been prosecuted and others commenced, civil and criminal.

The total amount of taxes collected on tobacco and snuff from September 1, 1862, to June 3, 1875, ja \$225,356,219.78. The total collections on cigars, cheropts, and cigarettes for the same period is \$68,238,206. While t is doubtful whether the removal of the tax altogether on tobacco, snuff, and cigars would have the effect of greatly increasing rates, save perhaps the reduction of the rate of per pound, would cause a corresponding reduction in the aggregate collections.

THE BANES. The increase of \$556,939.91 in the tax assessed this year on deposits, capital, and circulation of banks, &c., over the amount assessed last year, includes assessments amounting to \$227,716 made in December last against certain manufacturing and other corporations on notes paid out and issued for circulation. These assessments, which had heretofore escaped the vigilance of the local officers, were made by the internal revenue office in strict accordance with existing laws, but they were not collected, as Congress, by act of March 3, 1875, relieved those companies against whom assessments had been made, together with all other parties against whom similar large assessments were contemplated, from the payment of the tax and penalty; but even after deducting the item of \$227,715 from the total increase of \$556,939, there remains a clear gain of \$329,224 over the assessments made during the year ended April 80, 1874, and an increase over the collections from these sources during the fiscal year ended June 80, 1873, of \$1,158,514.

ESTIMATED COLLECTIONS. The commissioner estimates that the collections during the fiscal year from all sources of internal revenue will amount to \$122,

GRANITE CONTRACTS .- In his annual reoort Supervising-Architect Potter says: Upon my entry into this office there were n process of execution contracts for cutting grapite for superstructures of several of the largest buildings now being constructed under the supervison of the Treasury Department. These contracts, known as the percentage contracts, provide for the pay ment to contractors of the actual cost of all abor and materials used in the work of cutting, dressing, and boxing the stone, increased by fifteen per cent. of the same. While there are advantages in this system of executing this very important branch of the service, I am persuaded that it is founded on a mistaken principle, and that so long as the profits to contractors are in proportion. to the extent of the expense of their work, the Department will find great difficulty in keeping the cost of the same within reasonable limits.

In the United States District Court to-day the trustee in the bankruptcy case of Henry Clews & Co. filed a bill in equity, asking that his rights as trustee be protected against Mr. Loomis, of the firm of F. Butterfield & Co. Clews & Co. have a large claim against Butterfield & Co., and Mr. Loomis is suing the latter party for almost their entire assets; hence Mr. Tappan asks that his claim may be protected.

Among the appropriations made by the Board of Missions of the Methodist Episcopa Church were \$7,500 for Virginia and \$4 500 for West Virginia. A resolution was adopted recommending the removal of the seat of the General Conference from St. Louis to Balti-

Dr. Thomas W. Evans, a well-known American dentist in Paris, sends a cable dispatch to the Associated Press, in which he says that feeling that the coming centennial anniversary would be a befitting time to stored to health, and discontinued its use. The Lennie will probably be taken into St. Nazaire and the suspected sailors delivered up to the British Government."

France. Paris, November 12 .- La Republique Française, Gambetta's organ, characterizes the vote yesterday in the Assembly as reactionary. It says: "We are beaten, but not despairing. It is not enough to triumph in the Assembly. The country is still to be won. What has happened should stimulate our zeal. If we can enlighten the country universal suffrage will be able to take care of itself."

The vote alluded to was taken by secret ballot, and resulted in favor of the Government by 357 yeas to 326 nays.

In consequence of its triumph in the Asembly yesterday, the Conservative party intends to take the lead in a movement in favor of dissolution. It is generally believed the Assembly will dissolve in December; and the elections for senators will be held in January and representatives in February. President McMahon thanked M.
